

FAQ

Your questions, clearly answered

This section covers the most common questions agencies ask when considering Property Eye. The answers are designed to give clarity and confidence without unnecessary technical detail. If you would like a deeper walkthrough, you can always request a demo.

GENERAL

What is Property Eye?

Property Eye is a UK-focused fraud detection and monitoring platform built for real estate agencies. It provides continuous oversight of commission activity to help identify irregular behaviour and reduce revenue loss.

Who is Property Eye designed for?

Property Eye is designed for all UK real estate agencies, regardless of size, structure, or business model. The platform scales naturally as agencies grow.

Why do agencies need fraud monitoring?

Commission leakage often goes unnoticed due to complex transactions and fragmented systems. Ongoing monitoring helps agencies detect issues early rather than reacting after losses occur.

Is Property Eye only for large agencies?

No. Agencies of any size can experience commission fraud or avoidance. Property Eye provides the same level of monitoring whether an agency operates one branch or many.

Does Property Eye assume wrongdoing?

No. Property Eye focuses on visibility and risk awareness. It highlights irregular patterns so agencies can review activity objectively.

How quickly can Property Eye be implemented?

Implementation is straightforward and designed to minimise disruption. Most agencies can be onboarded quickly with support from our team.

Will Property Eye disrupt daily operations?

No. The platform operates in the background and does not interfere with normal agency workflows.

What types of agencies use Property Eye?

Property Eye is used by independent agencies, regional firms, and multi-branch organisations across the UK.

Is training required to use Property Eye?

The platform is designed to be intuitive. Minimal training is required, and guidance is provided during onboarding.

How do we get started?

You can request a demo to see how Property Eye works and determine whether it fits your agency's needs.

PRICING

How is Property Eye priced?

Pricing is simple and predictable, structured around the scale of your agency rather than complex usage metrics.

Are there different pricing tiers?

Yes. Plans are designed to reflect agency size while maintaining consistent fraud monitoring capabilities.

Is pricing transparent?

Yes. All pricing is clearly outlined upfront with no hidden fees.

Are there setup costs?

Any onboarding or setup costs are communicated clearly before subscription begins.

Can pricing change over time?

Pricing only changes if you choose to move to a different plan as your agency grows or changes.

Do you offer discounts?

Discounts may be available for longer-term commitments. Details are discussed during onboarding.

Is there a minimum contract length?

Contract terms are flexible and designed to suit agency needs.

Can we pause or cancel our subscription?

Subscription options and cancellation terms are clearly defined in your agreement.

Does pricing increase per transaction?

No. Pricing is not based on individual transactions, ensuring predictability.

How do we choose the right plan?

Our team helps you select a plan that aligns with your agency's size and operational structure.

FEATURES

What does Property Eye monitor?

Property Eye monitors commission-related activity to identify patterns that may indicate fraud or avoidance.

Does the platform work in real time?

Yes. Monitoring is continuous, allowing agencies to stay informed as activity occurs.

What kind of insights does Property Eye provide?

Insights focus on highlighting unusual patterns, trends, and areas that may require attention.

Does Property Eye replace manual checks?

Property Eye reduces reliance on manual reviews but does not prevent agencies from maintaining internal controls.

Can insights be filtered or reviewed historically?

Yes. Agencies can review trends and historic activity to maintain long-term oversight.

Does Property Eye provide alerts?

The platform surfaces key indicators without overwhelming users with unnecessary notifications.

Can multiple users access the dashboard?

Yes. Access can be provided to relevant team members based on roles.

Does Property Eye integrate with agency systems?

Property Eye is designed to work alongside existing systems without disruption.

How often is the platform updated?

The platform is continuously improved to reflect evolving risks and agency needs.

Can we customise what we see?

Dashboards are designed for clarity while offering flexibility in how information is viewed.

SECURITY

How secure is Property Eye?

Property Eye uses enterprise-grade security practices to protect agency data.

Is data encrypted?

Yes. Data is protected using modern encryption standards.

Who has access to our data?

Only authorised users within your agency can access your data.

Is Property Eye compliant with UK regulations?

Yes. The platform aligns with UK data protection and security standards.

How is system access protected?

Access controls and authentication measures are in place to prevent unauthorised use.

Is security audited?

Security practices are reviewed regularly to maintain high standards.

What happens if suspicious access is detected?

Protective measures are in place to investigate and respond appropriately.

Does Property Eye store financial details?

Only necessary data is processed to deliver monitoring and insights.

How is downtime handled?

The platform is built for reliability with safeguards to minimise disruption.

Is customer data isolated?

Yes. Each agency's data is securely separated.

BILLING

How does billing work?

Billing operates on a subscription basis with clear invoicing.

How often are invoices issued?

Invoices are issued according to your selected billing cycle.

Can billing details be updated?

Yes. Billing information can be updated as needed.

Are invoices itemised?

Invoices clearly outline your subscription and charges.

What happens if a payment fails?

Our team will contact you to resolve the issue promptly.

Are refunds available?

Refund policies are outlined clearly in your agreement.

Can billing be centralised for multiple branches?

Yes. Billing can be managed centrally for multi-branch agencies.

Do prices include taxes?

Applicable taxes are clearly indicated on invoices.

Can we change billing cycles?

Billing cycles can be adjusted subject to agreement terms.

Who do we contact for billing support?

Our support team is available to assist with billing questions.

ACCESS & PERMISSIONS

Who can access Property Eye?

Access is granted based on user roles within your agency.

Can access be restricted?

Yes. Permissions ensure users only see relevant information.

Can roles be customised?

Role-based access can be adjusted as your team evolves.

Is access logged?

User activity is logged to support accountability.

Can we remove access instantly?

Yes. Access can be revoked immediately when required.

Is there an admin role?

Yes. Admin users manage access and permissions.

Can external auditors be given access?

Temporary or limited access can be arranged where appropriate.

Can we control dashboard visibility?

Dashboards are designed to support role-specific oversight.

Is access secure for remote teams?

Security measures support safe access from approved locations.

Can permissions be reviewed regularly?

Permissions can be reviewed and updated at any time.

DATA PRIVACY

How does Property Eye handle data privacy?

Data privacy is central to how Property Eye operates, with processing limited to what is necessary.

Is Property Eye GDPR compliant?

Yes. The platform aligns with UK GDPR requirements.

Is customer data shared externally?

No. Data is never sold or shared with third parties.

How long is data retained?

Data retention policies follow regulatory and operational requirements.

Can agencies request data deletion?

Requests are handled in line with applicable regulations.

Is data anonymised where possible?

Privacy safeguards are applied to minimise exposure.

Who owns the data?

Agencies retain ownership of their data.

Can agencies access their data?

Agencies can review relevant data through the platform.

How is data transferred securely?

Secure transmission protocols are used at all times.

Where can I learn more about privacy policies?

Full details are available in our Privacy Policy or upon request.
