Your Agency's Real-Time Fraud Intelligence

Property Eye is a fraud detection and monitoring platform built for UK real estate agencies. We provide continuous oversight of commission activity, helping agencies identify irregular behaviour early, reduce revenue loss, and maintain trust across their operations.

Trusted by agencies across the United Kingdom, Property Eye delivers clear visibility without adding operational friction.

WHY AGENCIES TRUST PROPERTY EYE

Detect hidden commission leaks

Commission loss often goes unnoticed until it becomes significant. Property Eye continuously monitors activity to surface patterns and inconsistencies that traditional checks miss, allowing agencies to address issues before they escalate.

Recover lost revenue

By identifying irregularities early, agencies are better positioned to investigate, correct, and recover revenue that would otherwise slip through the cracks.

Protect against internal and external fraud

Fraud risks are not limited to a single source. Property Eye provides ongoing monitoring that helps agencies stay protected from both internal misconduct and external manipulation.

View long-term activity with clarity

Access historic commission activity in one place, making it easier to spot trends, compare periods, and maintain consistent oversight as your agency grows.

WHERE PROPERTY EYE PROTECTS YOUR AGENCY

Property Eye is designed to monitor common areas where commission fraud and avoidance occur, including:

- Unauthorised private deals
- Dual or double representation
- Commission bypassing

The platform highlights risk indicators without disrupting normal workflows, giving leadership teams the insight they need to act decisively.

HOW IT WORKS

Secure data connection

Your agency securely connects relevant property and client data, ensuring monitoring is accurate and up to date.

Continuous fraud monitoring

Property Eye runs ongoing checks across commission activity, watching for irregular patterns and potential risks as they emerge.

Clear insights in your dashboard

Findings are presented through a straightforward dashboard that prioritises clarity, helping you understand what matters without unnecessary complexity.

REAL-TIME OVERSIGHT AT A GLANCE

Visual summaries highlight commission avoidance patterns and risk levels over time, helping agencies track exposure and measure improvement without relying on manual reviews.
